Subject: House Bill 5232 and Senate Bill 720

Good morning,

My names is James A. Turner, 280 East Boston Blvd. Detroit 48202. This letter is meant to address my concerns for these bills that take all of us away from the things we should be most interested and focused on the health and safety of the citizens of our state. There is no problem here for those of us living in historic districts, we understand the present guidelines, we live within them.

your concerns should be to craft bills to protect our drinking water, develop a plan for a roads bill as well as a plan to insure that our Great Lakes are free from oil leaks now and into our future. These bill only the needs of one person or one corporate citizen not the 99% of us that value of neighborhoods, downtowns and village squares. Serve the whole community, not just the corporate interest of a few.
